Service Plan

1. Strategies

The mission for the City of La Porte's Fire Department is to provide the community with the most efficient and progressive Fire Prevention, Protection, and Emergency Services possible in an effective and responsible manner. This mission is accomplished by providing the best possible training, updated equipment, and protocols for the people that respond. The Fire Control, Prevention, and Emergency Medical Services District (LPFCPEMSD) will incorporate strategies to help the Fire Department accomplish their mission.

Item 1- Additional Personnel

The LPFCPEMSD will provide funding for a Safety/Training Officer. Duties will include responding to calls as a safety officer to help meet NFPA recommendations. This will assist in the safety of firefighters and citizens. The position will also be responsible for the weekly training of firefighters both career and volunteer.

Item 2 – Fire Response and Medical Supplies

The LPFCPEMSD will provide funding for response supplies including personal protective equipment, safety equipment, and medical response equipment. This will ensure our personnel have up to date protective and safety equipment to meet state and national standards.

Item 3 – Response Equipment

Item 4 – Training

The LPFCPEMSD will provide funding for personnel to attend training classes and seminars to keep up to date with the latest technologies and procedures available in the surrounding areas, state, and country. Funding will also be made available to keep our fire training facility functioning to insure the development of future firefighters.
